(2) *For reductions in package contents*. Any manufacturer of an item of snuff who desires to introduce a new size of a brand instead of taking a price increase on his old item of the same brand may sell a new size of the brand with the applicable amount of package contents listed in column 4 of Table A, above, at the old maximum list price for the old item.

(3) *Notification to purchasers*. On or before his first delivery of an item of snuff the maximum list price or contents of which has been adjusted in accordance with subparagraph (1) or (2) of this paragraph, the manufacturer shall give each purchaser the applicable notice set forth below. Such notice shall be attached to or stated on the invoice covering such first delivery. These notices may be varied to the extent necessary to give notices of increases on a multiple number of items in a single notice.

(Insert date)

The Office of Price Administration has authorized an increase in our maximum list price for our _____ (describe item by brand and container type and size) of _____ cents per dozen. Wholesalers and jobbers are authorized to increase their net selling prices for this item by the amount of the increase taken by the manufacturer plus their customary markup on the item, applied to the amount of the increase. Retailers may add _____ cents per package to their maximum prices legally in effect before receipt of notice from their supplier. The Office of Price Administration requires that you keep this notice for examination.

(Insert date)

The Office of Price Administration has authorized us to sell a new size package of our _____ brand containing _____ ounces of snuff. Your maximum price and the maximum prices of retailers for this new size are each the same as they were before May 11, 1946, for the item of this brand weighing _____ ounces (give weight in ounces of old item). The Office of Price Administration requires you to keep this notice for examination.

(b) *Wholesalers' maximum prices; notice to purchasers*. (1) Upon receipt of notification, pursuant to paragraph (a) (3) above, of an adjustment of his supplier's maximum list price allowed by paragraph (a) (1), above, for an item of snuff, a wholesaler's maximum net selling price is increased by the amount of the net increase in the price of his supplier plus the wholesaler's usual markup on the amount of the increase taken by his supplier. Such adjustment shall be applicable to floor stocks. Where a manufacturer has not adjusted his maximum list price pursuant to paragraph (a) (1) above, with respect to any item of snuff, no increase may be charged by the wholesaler with respect to that item.

(2) After receipt of notice from his supplier, any wholesaler may sell, and any person may buy from that wholesaler, a new size package of a brand of snuff the quantity contents of which was sold by its manufacturer at a maximum price determined pursuant to paragraph (a) (2), above, at the wholesaler's maximum price legally in effect before May 11, 1946 for the manufactur-

er's old item on which the new size of the brand was introduced pursuant to paragraph (a) (2), above.

(3) On or before his first delivery of an item of snuff the maximum list price of which has been increased as allowed by paragraph (a) (1), above, the wholesaler shall give the purchaser the following written notice. This notice and the notice in subparagraph (4) immediately following may be varied to the extent necessary to adapt them for giving notice on a multiple number of items in a single notice.

(Insert date)

The Office of Price Administration has authorized a price increase of _____ cents in the manufacturer's list price per dozen of _____ (identify item by brand and container type and size) and an increase in the wholesale price of _____ cents per dozen. Retailers are authorized to add _____ cents to their maximum prices for the item legally in effect before receipt of this notice. Where a retailer's new maximum price for a single package ends in a half cent for a particular item the retailer must give each purchaser the option of buying at least two packages of the item.¹ Retailers must maintain their customary price differentials allowed by them during March 1942. The Price Administrator requires that you keep this notice for examination.

(4) On or before his first delivery of a new size of snuff, the quantity contents of which have been reduced from the old item by the manufacturer pursuant to paragraph (a) (2), above, the wholesaler shall give the purchaser the following written notice:

(Insert date)

The Office of Price Administration has authorized the manufacturer of _____ (identify brand) to introduce a new size of this brand weighing _____ ounces. Our maximum price for this new size is the same as our maximum price for the _____ size of this brand before May 11, 1946. Retailers are authorized to sell this new size for the same maximum price as they had legally in effect for the _____ size (give old size of package) before May 11, 1946. The Office of Price Administration requires you to keep this notice for examination.

(c) *Retailers' maximum prices*. (1) Upon receipt of notification pursuant to paragraph (a) (3) or (b) (3), above, from his supplier of an adjustment of the supplier's maximum price for an item of snuff pursuant to paragraph (a) (1) or (b) (1), above, a retailer is authorized to add to his maximum price per package legally in effect before receipt of such notice, the applicable amount listed in column 3 of Table A, above, in accordance with such notification. Such adjustment shall be applicable to floor stocks. When the allowed price increase results in a price ending in a half cent for a single package, the maximum retail price for a single package may be increased to the next highest full cent but the retailer must give each purchaser the option of buying at least two packages of the item of snuff at the multiple unit price. If a retailer's supplier has taken none of the price increase

¹ This sentence may be omitted if the authorized increase in the retail price does not end in a half cent.

allowed on an item of snuff, no increase is allowed in the retailer's maximum price for that item. Retailers must maintain their customary price differentials allowed by them during March 1942.

(2) After receipt of notice from his supplier pursuant to paragraph (a) (3) or (b) (3), above, any retailer may sell and any person may buy from that retailer a new sized package of a brand of snuff, which has been sold by its manufacturer pursuant to paragraph (a) (2), above, at the particular retailer's maximum price legally in effect before May 11, 1946, for the manufacturer's old item, the old maximum list price of which applies to the new size package.

(d) *Maintenance of customary discounts and allowances.* A seller's customary discounts and allowances shall not be less than those allowed by him in March 1942 on his sales of snuff.

(e) *State and local taxes.* Maximum prices established by this section are exclusive of any increases in State and local taxes upon tobacco products which have been added since the General Maximum Price Regulation went into effect or which may be added, or are caused by the increases in maximum prices allowed

by this section. Sellers may add to these prices the amount of such tax applicable to the item being priced and paid or payable by them to the taxing authorities or to a prior vendor.

(f) *Units of sale.* Maximum prices shall be stated in terms of the same general units (like dozens, packages, etc.) in which the seller has customarily quoted prices for the product.

(g) *Geographical applicability.* Provisions of this section shall be applicable to the forty-eight States of the United States and to the District of Columbia.

(h) *Definitions.* When used in this section, the term "Snuff" means the manufactured tobacco product customarily known to the trade as snuff and does not mean any item of manufactured tobacco the price of which has been increased under sections 2, 4, 5 or 6 of this supplementary regulation.

"List price" means the manufacturer's gross price before discounts and allowances.

"Item" means a particular brand (if any) container type and size of snuff.

"Old maximum list price" means a list price determined as a seller's maximum list price under the General Maximum Price Regulation.

"New maximum list price" means a seller's old maximum list price, plus the applicable increase allowed in Table A herein.

This amendment shall become effective May 11, 1946.

Issued this 6th day of May 1946.

PAUL A. PORTER,
Administrator.

PART 1426—WOOD PRESERVATION AND PRIMARY FOREST PRODUCTS

[3d Rev. MPR 313]

VENEER LOGS

Second Revised Maximum Price Regulation No. 313 is redesignated 3d Revised Maximum Price Regulation 313 and is revised and amended to read as set forth below:

In the judgment of the Price Administrator, the maximum prices established by this revised regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250, 9328, 9697 and 9599, as amended. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected or insofar as their use was not lawfully required by another Government Agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

AUTHORITY: § 1426.261 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487; E.O. 9697, 11 F.R. 1691.

SECTION 1. *Over-ceiling prices prohibited.* (a) On and after May 11, 1946, regardless of any contract or obligation, no person shall sell or deliver and no person shall buy or receive any veneer logs, as defined below, at prices higher than the

maximum prices fixed by this regulation; and no person shall offer or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged or paid.

SEC. 2. *Scaling rules.* All logs covered by this regulation must be scaled with the Doyle Log Rule or Doyle Scribner Rule. The diameter of the log shall be measured inside of bark at the small end (top) of the log at the smallest diameter. Fractions of an inch $\frac{1}{2}$ or less shall be dropped; fractions of an inch greater than $\frac{1}{2}$ inch may be raised to the next higher inch. The footage measurements on this rule must be shown on the invoice or bill as required in Section 10.

SEC. 3. *Delivery provisions.*—(a) *Where prices apply.* The maximum prices for veneer logs set out below apply either:

(1) Loaded on railroad cars at rail siding of common carrier railroad;

(2) Delivered to a place at which water shipment is to begin, placed in good condition for loading; or

(3) Delivered by truck to the buyer's plant from within 25 miles of the mill. If delivery is made to the mill by truck from a distance greater than 25 miles, the buyer may add not to exceed 1¢ cents per M' log scale for each mile over 25.

This means that the seller cannot add to the maximum prices any charge for loading logs on rail cars except as specified in section 6 (b), or for trucking logs to a rail siding, to a place at which water shipment is to begin, or to buyer's plant from within 25 miles of the plant.

(b) *Reduction for non-delivery.* If the buyer takes delivery at some place other than on railroad cars, or at a place at which water shipment is to begin, or at his plant, the maximum price must be reduced by the following:

(1) The cost per thousand feet log scale to the buyer of trucking the logs to the nearest rail siding of a common carrier railroad and loading the logs on cars, if delivery of logs to mill is by rail; or

(2) The cost per thousand feet log scale of hauling logs to a place where water shipment is to begin, if delivery of logs to mill is made by barge, raft, or gunboat; or

(3) The cost per thousand feet log scale of hauling logs to the plant, if delivery of logs to plant is by truck.

SEC. 4. *Coverage of veneer logs and blocks produced in Zone I.*—(a) *Products and persons covered.* Any firm or person who sells veneer under one or all of the following maximum price regulations for veneers is eligible to purchase veneer logs under this regulation: Maximum Price Regulation 538, Commercial Veneers, Maximum Price Regulation 338, Aircraft Veneers, Maximum Price Regulation 176, Box Veneers and sawn and sliced veneers sold under the General Maximum Price Regulation. Manufacturers of veneers who do not sell the veneers but remanufacture them into plywood and plywood products or who manufacture containers from box grade veneers are eligible to buy under this section.

(b) *Other persons.* Firms or persons not automatically eligible under (a) but definable as: (1) Those who, because of

the end product, other than lumber or staves and heading, to be manufactured, must buy logs equal to or better than these grades, or (2) buyers or sellers of veneer logs for export, may, upon direct application to the Lumber Branch, Office of Price Administration, Washington 25, D. C., secure permission to buy or sell logs, as the case may be, on this schedule. The application of the prospective purchaser, under (1) above, must contain sufficient proof that the purchase of logs of this quality is necessary in the manufacture of the end product.

(c) *Geographical applicability.* Zone 1 includes parts of Virginia, North Carolina, South Carolina and Georgia, specifically described as follows:

(1) All of the counties in Georgia except Rabun, Habersham, White, Lumpkin, Union, Fannin, and Towns;

(2) All of the counties in South Carolina except Greenville, Pickens and Oconee;

(3) The counties in North Carolina east of and including the counties of Stokes, Yadkin, Iredell, Catawba, Lincoln and Gaston; and

(4) The counties in Virginia east of and including the counties of Fairfax, Prince William, Stafford, Culpeper, Orange, Louisa, Fluvanna, Buckingham, Appomattox, Campbell, Pittsylvania, and Henry, but excluding the counties of Accomac and Northampton. (This area is the same as Zone 5 in Maximum Price Regulation 533-4).

SEC. 5. *Specifications of veneer logs and blocks in Zone 1.*—(a) *General requirements.* All veneer logs must have the heart well centered, must be reasonably straight and sound, and must be suitable for slicing or rotary cutting. A center rot, dote, or shake in the butt end of the log of up to four inches in diameter will be permitted in logs or blocks 24" and up in diameter, and up to 3" for logs or blocks less than 24" in diameter, without degrading the log.

All logs must be at least 8' in length and must be cut 4' over length to allow for trim. Any log which is not cut sufficiently over length to allow for trim shall be reduced in scale to the next lower standard length. Logs shorter than 8' in length shall be cut to lengths specified by the buyer and shall be graded as blocks or bolts.

(b) *Zone I veneer log grades.*—(1) *No. 1 grade.* This grade will permit as a minimum those logs 12" and up in diameter, at the small ends which have either:

(i) 3 clear faces.

(ii) 75% of the length clear in one continuous section; or

(iii) 80% in clear sections in not more than 3 clear cuttings with no cutting or clear section less than 3'6" in length.

(2) *No. 2 grade.* This grade will permit as a minimum those logs 12" and up in diameter at the small end which have either:

(i) 2 clear faces.

(ii) 50% of the length clear in one continuous section; or

(iii) 66⅔% in clear sections in not more than 3 clear cuttings with no cutting or clear section less than 3'6" in length.

(3) *Cull grade.* This grade shall consist of all logs which do not meet the specifications of a No. 2 log, but which, after deductions have been made for defects, retain at least 50% of the gross scale. This grade includes clear 10" and 11" logs.

(c) *Zone 1 veneer block grades—(1) No. 1 grade.* This grade shall include those blocks 12" and up in diameter which are clear of all visible defects.

(2) *No. 2 grade.* This grade shall include those blocks 12" and up in diameter which have 3 clear faces or 80% of the length clear in one continuous section.

(3) *Cull grade.* This grade shall include those blocks 12" and up in diameter which do not meet the specifications of a No. 2 grade bolt, but which after deductions have been made for defects, retain at least 50% of the gross scale. All clear 10" and 11" bolts are also included in this grade.

SEC. 6. *Maximum veneer log and block prices in Zone I.* (a) The maximum prices below apply only to those buying plants which are eligible to purchase these logs under Sections 4 (a) or 4 (b) of this regulation.

NOTE: At least 85% of the logs and blocks purchased from the seller under this price schedule must be grade 2 or better in a particular load being priced and of all logs purchased from a particular seller during a calendar month. If this requirement is not met, the buyer and seller must either: (a) buy and sell all of the logs at the woodsrun prices as already set forth in Maximum Price Regulation 533-4, or (b) cut out that volume of logs and blocks in the grades lower than the No. 2 grade which are in excess of the permissible 15%.

NOTE: The Oak priced above is the ordinary Oak used in the manufacture of veneers. Purchasers of soft, even textured White Oak with a small tight heart, thin sap, straight grained and free from streaks and discoloration must apply to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for maximum prices he may pay for this type of log.

(b) The above prices are for logs and blocks f. o. b. railroad cars or delivered to the mill by truck from within 25 miles. If there is a competing veneer plant in the same town in which the logs and blocks are to be loaded on railroad cars, the cost of loading may be added to the purchase price, or \$2.00 per M board feet, whichever is lower.

SEC. 7. *Coverage of veneer logs and blocks produced in Zone II—(a) Products and persons covered.* Any firm or person who sells veneer under one or all of the following maximum price regulations for veneers is eligible to purchase veneer logs under this regulation: Maximum Price Regulation 538, Commercial

Veneers, Maximum Price Regulation 338, Aircraft Veneers, and sawn and sliced veneers sold under the General Maximum Price Regulation. Manufacturers of those veneers named above who do not sell the veneers but remanufacture them into plywood and plywood products are eligible to buy under this section. Manufacturers who sell their veneers under Maximum Price Regulation 176, Box Veneers, are not eligible to purchase veneer logs in Zone II under this regulation.

(b) *Other persons.* Firms or persons not automatically eligible under (a) but definable as: (1) Those who, because of the end products, other than lumber or staves and heading, to be manufactured, must buy logs equal to or better than these grades, or (2) Buyers or sellers of veneer logs for export, may, upon direct application to the Lumber Branch, Office of Price Administration, Washington 25, D. C., secure permission to buy or sell logs, as the case may be, on this schedule. The application of the prospective purchaser, under (1) above, must contain sufficient proof that the purchase of logs of this quality is necessary in the manufacture of the end product.

(c) *Geographical applicability.* Zone II includes all that part of the United States east of the 100th Meridian, except the area defined in Zone I, and except the states of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, Minnesota, Wisconsin, the Upper Peninsula of Michigan, and all counties north of, but not including Oceana, Newaygo, Montcalm, Gratiot, and Saginaw in the Lower Peninsula of Michigan.

SEC. 8. *Specifications of veneer logs and blocks in Zone II—(a) General requirements.* All veneer logs must have the heart well centered, must be reasonably straight and sound, and must be suitable for slicing or rotary cutting. A center rot, dote, or shake in the butt end of the log of up to four inches in diameter will be permitted in logs or blocks 24" and up in diameter and up to 3" for logs or blocks less than 24" in diameter, without degrading the log.

All logs must be at least 8' in length and must be cut 4" over length to allow for trim. Any log which is not cut sufficiently over length to allow for trim will be reduced in scale to the next lower even length. Logs shorter than 8' in length shall be cut to lengths specified by the buyer and shall be graded as blocks or bolts.

(b) *Zone II veneer log grades—(1) Prime grade.* This grade will permit as a minimum those logs which are 90% usable in clear length. Defects are allowable in this grade if they are so spaced as to provide not more than two clear sections at least 4'6" in length for those logs to be rotary cut; or, in case of logs to be sliced, the 90% in clear sections must be clear flitches, at least 8' long; one clear flitch, however, may be 6' long, but other flitches produced from the logs must be clear and at least 8' in length. This grade will not admit defects requiring length dockage in logs 8' in length but length dockage up to 2' is permissible in logs 10' and over.

(2) *Select grade.* This grade will permit as a minimum those logs which have either:

(i) 3 clear faces;

(ii) 75% of the length clear in one continuous section; or

(iii) 80% usable in clear sections in not more than 3 clear cuttings for those logs to be rotary cut, with no cutting or clear section less than 42" in length. For those logs to be sliced, the 80% in clear sections must be clear flitches at least 6' long.

(2) *No. 2 grade.* This grade shall include those blocks 12" and up in diameter which have 3 clear faces or 80% of the length clear in one continuous section.

(3) *Cull grade.* This grade shall include those blocks 12" and up in diameter which do not meet the specifications of a No. 2 grade bolt, but which after deductions have been made for defects, retain at least 50% of the gross scale. All clear 10" and 11" bolts are also included in this grade.

SEC. 9. *Maximum prices for veneer logs and blocks in Zone II.* (a) The maximum prices below apply only to those buying plants which are eligible to purchase these logs under Sections 7 (a) or (b) of this regulation.

SEC. 10. *What the invoice or billing must contain.* (a) All invoices and billings of veneer logs must contain a sufficiently complete description of the logs covered to show whether the price is proper or not, including the species, grade, diameter, gross and net length, net footage of each of the veneer logs purchased or sold, origin and point of delivery, date of sale, and name and address of buyer and seller.

(b) Any part of the information required on the invoice may be furnished in a tally sheet, attached to and made a part of the invoices.

(c) An invoice or billing may cover all logs delivered by the seller to a purchaser during a period of not more than two weeks.

(d) Either the buyer or seller may prepare the invoice or billing but both have the responsibility of correct invoicing or billing.

(e) Failure to invoice properly is just as much in violation of this regulation as charging an excessive price.

(f) Buying plants purchasing logs in Zone II must continue to file a copy of each invoice with the Office of Price Administration District Office nearest the point of production of the logs.

SEC. 11. *Use of invoices as records.* Each buyer and seller must keep as a record, one copy of all invoices and billings covering veneer logs purchased or sold. These must be kept, for inspection by the Office of Price Administration, for the duration of the Emergency Price Control Act, as amended.

SEC. 12. *Prohibited practices—(a) General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Specific prohibited practices.* The following are among the specific practices prohibited:

(1) Up-grading, up-scaling, or allowing a greater net scale footage than actual scale content of the log.

(2) Selling logs on scale other than Doyle Rule (except that the Doyle Scribner Rule may be used).

(3) Charging purchasing or selling commission based on quantity or value

of logs purchased, if the commission plus the purchase price is higher than the maximum price permitted by this regulation.

(4) Increasing the price of logs by not making a good faith effort to collect advances to loggers. An advance to a logger is to be considered part of the price of the logs.

(5) Purchasing logs or blocks when not qualified under sections 4 or 7 of this regulation to purchase logs in either Zones I or II under the regulation.

SEC. 13. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is necessary to promote distribution or production and it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 14. *Application for adjustment and petitions for amendment.* (a) *Government contracts.* See Procedural Regulation No. 6¹ for adjustment provisions on certain government contracts or sub-contracts.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1² issued by the Office of Price Administration.

SEC. 15. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 16. *Licensing.* The provisions of Licensing Order No. 1³ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. All sellers' licenses may be suspended for violations of the license or of the applicable price regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 17. *Special pricing.* For any species or specifications for which a maximum price is not provided, the maximum price shall be the price established by the Office of Price Administration, Washington 25, D. C., after full facts have been

submitted in support of a request for the establishment of a maximum price. The application should be submitted to the Lumber Branch and must contain the names and addresses of the buyer and seller, the species and grade to be priced, the area from which the logs will be produced, and a statement from the buyer that the requested price will not be used as a basis for seeking adjustment of his end product ceiling price. It must also contain supporting data on the prior existence of a price differential where the price requested is higher than the price for the highest grade of the same species in the regulation. The maximum price will be established by order of the Administrator.

This regulation shall become effective May 11, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 6th day of May 1946.

Administrator.

(b) *Resellers' maximum prices.* (1) Each seller shall calculate his maximum resale prices for articles covered by this order by adding to his invoice cost, the

same percentage markup which he has on the "most comparable article" for which he has a properly established maximum price. For the purposes of this order, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called by OPA form 620-759 with regard to the determined price, for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a maximum price under Section 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the suppliers' prices as adjusted in accordance with this order.

(2) The provisions of Supplementary Order No. 163 shall not apply to sales of articles covered by this order.

(c) *Terms of sales.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials, in effect during March, 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods, established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation of amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 4th day of May 1946.

Issued this 3d day of May 1946.

Administrator.

[Rev. SO 119, Order 189]

ALLEN MFG. CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119; It is ordered:

(a) *Manufacturer's maximum prices.* Allen Manufacturing Co., Inc., of 300 Tenth Avenue North, Nashville 1, Tennessee may compute its adjusted maximum prices for all articles of coal and wood and oil burning stoves and heaters which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted maximum price is the highest price charged during that month to each class of purchaser increased by 9 percent.

(2) For an article not in its line during October 1941, but which has a properly established maximum price, in effect before the effective date of this order, the adjusted maximum price is the article's properly established maximum price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted maximum price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 64, (using the adjusted maximum price of the comparable article); and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted maximum price fixed in accordance with this order is his new maximum price if it is higher than his previously established maximum price including all increases and adjustments otherwise authorized for him individually or for his industry.

(5) The manufacturer shall furnish an invoice to each purchaser for resale which will comply with the requirements of Maximum Price Regulation No. 64. On that invoice, it must state and designate as its "OPA Industry Reconversion Increase" that part of its adjustment under this order which is equal to five percent of his maximum price (exclusive of all adjustments).

Example

Model A stove:	
October, 1941 price.....	\$42.59
Maximum price (exclusive of all adjustments).....	44.08
Adjustment permitted by this order.....	3.83
Adjusted maximum price under this order.....	46.42
Invoice must state:	
Model A Stove.....	44.22
OPA industry reconversion increase.....	2.20
Total.....	46.42

(The figure "\$2.20" is five percent of \$44.08, the maximum price exclusive of all adjustments).

(b) *Resellers' maximum prices.* A reseller shall determine his maximum prices for resales of any article which he has purchased at a maximum price adjusted under this order as follows:

(1) If he has maximum prices established for sales of comparable articles he shall calculate his maximum price under this order by adding to his invoice cost (not including his supplier's separately stated OPA Industry Recon-

version Increase) the same percentage mark-up which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

A wholesaler establishing his maximum prices under this paragraph may add to the price so determined an amount equal to three-fourth of the dollar-and-cent amount of the separately stated "OPA industry reconversion increase" appearing on the manufacturer's invoice to him.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

(2) If a reseller cannot otherwise find his maximum price for a particular sale he shall apply to the Office of Price Administration for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation or § 1372.101 (d) of Maximum Price Regulation No. 210, whichever is applicable. Maximum prices established under either of those sections will reflect the supplier's prices as adjusted in accordance with this order.

(3) A wholesaler establishing his maximum prices under this paragraph shall provide each purchaser for resale from him of articles covered by this order with a sales invoice which conforms to the provisions of Section 11c of Maximum Price Regulation No. 64 on which he must separately state and designate as his "OPA industry reconversion increase" an amount equal to three-fourths of the dollar-and-cent amount of the separately stated "OPA industry reconversion increase" appearing on the manufacturer's invoice to him (as required by Maximum Price Regulation No. 64).

(c) *Notification.* At the time of, or prior to the first invoice to each purchaser for resale of articles sold at maximum prices adjusted under this order, the seller shall notify the purchaser in writing of the method of establishing maximum prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(d) *Relationship of this order to Maximum Price Regulation No. 64, Maximum Price Regulation No. 210 and the General Maximum Price Regulation.* All the provisions of Maximum Price Regulation No. 64, Maximum Price Regulation No. 210 and the General Maximum

Price Regulation continue to apply to sales of articles covered by this order except to the extent that they are modified by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 4th day of May 1946.

Issued this 3d day of May 1946.

[Rev. SO 119, Order 190]

EARLE S. IRWIN CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119; it is ordered:

(a) *Manufacturer's ceiling prices.* Earle S. Irwin Co., 534 Housemon Building, Grand Rapids, Michigan, may compute its adjusted ceiling prices for sales of School Furniture which it manufactures as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 17 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

The adjustment charge determined in accordance with this order must be separately stated by the manufacturer on each invoice to a purchaser for resale.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the

same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charge) for this purpose the reseller shall add to his invoice cost, less the adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has properly established ceiling price. For this purpose the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administrator; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices of articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 4th day of May 1946.

Issued this 3d day of May 1946.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new section 7.15 is added to read as follows:

SEC. 7.15 *Modification of maximum prices for 25/32" asphalt coated insulating sheathing.* (a) The manufacturer's net maximum prices to his various classes of purchasers for 25/32" asphalt coated insulating sheathing established pursuant to Maximum Price Regulation 592 may be increased by an amount not in excess of \$4.00 per M square feet of surface area.

(b) Any reseller purchasing 25/32" asphalt coated insulating sheathing for resale in the same form from any manufacturer who has modified his maximum prices in accordance with paragraph (a) above, may increase his maximum prices by a dollars-and-cents amount not exceeding his actual dollars-and-cents increase in cost resulting from the increase permitted the manufacturer in paragraph (a) above. However, notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

This amendment shall become effective May 3, 1946.

DURHAM MFG. CO.

ADJUSTMENT OF CEILING PRICES

Order No. 51 under Revised Supplementary Order 119 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Durham Manufacturing Company, Muncie, Indiana may compute its adjusted ceiling prices for all articles of metal household furniture which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 19.4 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this revised order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment

charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this revised order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this revised order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this revised order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this revised order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price" the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iii) Both it and the article being priced were purchased from the same class of supplier.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control

Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this revised order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this revised order.

(c) *Terms of sale.* Ceiling prices adjusted by this revised order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this revised order, showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this revised order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this revised order are hereby denied.

(f) This revised order may be revoked or amended by the Price Administrator at any time.

(g) This revised order shall become effective, May 3, 1946.

Issued this 3d day of May 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

MACHINES, PARTS AND INDUSTRIAL EQUIPMENT

ADJUSTMENT OF MAXIMUM PRICES FOR SALES OF TIRE INFLATION STANDS

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 30 of Revised Maximum Price Regulation 136, it is ordered:

(a) The maximum prices for sales of tire inflation stands, including accessories, repair and replacement parts, which are integral and functional parts thereof, by any manufacturer shall be established as follows:

(1) For any tire inflation stands, including accessories, repair and replacement

parts, which are integral and functional parts thereof, for which the manufacturer had a published list price in effect on October 1, 1941, or an established price in effect on the base date, the maximum price shall be the price computed under section 7 of Revised Maximum Price Regulation 136, increased by 11% of that price. For the purpose of this order, the term "base date" shall mean October 1, 1941.

(2) For any tire inflation stands, including accessories, repair and replacement parts, which are integral and functional parts thereof, for which the manufacturer can compute a price under section 8 of Revised Maximum Price Regulation 136, the maximum price shall be computed under section 8, using the price computed under the preceding subparagraph (1) as the maximum price for the product before modification.

Section 8 has reference to the establishment of a maximum price for a product which either had a published list price or an established price in effect on the base date or a list price approved by the Office of Price Administration in which there has been a substantial change in design, specification or equipment. In using section 8, therefore, under the provisions of this paragraph, a manufacturer must first establish a price for the product under the preceding paragraph (a), and then establish the increase or decrease in that price on the basis of the modification in the manner provided in section 8.

(3) For any other tire inflation stands, including accessories, repair and replacement parts, which are integral and functional parts thereof, the maximum price shall be computed under sections 9 and 10 of Revised Maximum Price Regulation 136, without addition of the increase permitted by this order.

(b) The maximum prices for sales by resellers of the products described in paragraph (a) above, shall be determined as follows:

(1) The reseller shall increase the maximum net prices he had in effect to a purchaser of the same class just prior to the issuance of this order, by the same amount in percent by which his net invoiced cost has been increased by reason of this order.

(2) The manufacturer shall notify each purchaser who buys the products listed in paragraph (a) above for resale of the amount, in percent, by which this order permits the reseller to increase his maximum net prices. (A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.)

(c) All prices established pursuant to this order shall be subject to the same discounts, credits and allowances in effect to any purchasers and classes of purchasers just prior to the issuance of this order.

(d) Notwithstanding any of the provisions of this order, any seller of tire inflation stands, including accessories, repair and replacement parts thereof, which are integral and functional parts thereof, may charge and collect the maximum prices for sales of his products

which he had in effect just prior to the issuance of this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 11, 1946.

Issued this 6th day of May 1946.

[Region II 2d Rev. Order G-15 Under
RMPR 122]

SOLID FUELS IN BALTIMORE CITY, AND BALTIMORE AND ANNE ARUNDEL COUNTIES, MD.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does*—(1) *Dealers' maximum prices; area covered.* If you are a dealer in solid fuels, this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" and "Virginia anthracite", and for certain sizes, quantities and types of bituminous coal and coke delivered to or at any point in State of Maryland—Coal Area 1. That area consists of Baltimore City and the following 1935 election districts in Baltimore County and Anne Arundel County, as shown on the Maryland Geological Survey Map, prepared in 1935 by the Maryland State Geologist: In Baltimore County: 1935 Election District Nos. 1, 2, 3, 9, 12, 13, 14 and 15. In Anne Arundel County: 1935 Election District No. 5.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated kinds, sizes and quantities of coal delivered within Coal Area 1 are set forth in Schedules I and II hereafter.

(3) *To what sales this order applies.* If you are a dealer in solid fuels, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area 1 whether or not you are located in Coal Area 1.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy solid fuels of the kinds, sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) *Use the schedule which covers your sale.* (Schedule I applies to sales on a "Direct-Delivery" basis. You will find Schedule I in paragraph (d). Schedule II applies to "Yard Sales". You will find Schedule II in paragraph (e).)

(2) Take the dollars-and-cents figure given in the applicable schedule, for the kind, size and quantity of solid fuel you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified in each schedule. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in Schedule I.

(5) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 75¢ per ton, you shall not add more than 56¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I—Sales on a "direct-delivery" basis.* Schedule I establishes a specific maximum price for certain kinds, sizes and quantities of solid fuel, delivered to or at any point within Coal Area 1. Prices in the following table are credit prices—applicable to payment made after 30 days from the date of delivery—and are subject to the discounts enumerated below.

(f) **Addition by dealers of charges for oil or chemical treatment of bituminous coal.** Notwithstanding other provisions of this order, if you are a dealer charged a price for oil or chemical treatment of bituminous coal from Districts 2, 3, 7 and 8, you may, on sales of such treated coal, add to the maximum prices set by this order the treatment charge made by your supplier, provided that it does not exceed 10¢ per net ton. This treatment charge may be added only if the treated coal is kept separate and is not mixed with other untreated coal. You need not separately state the amount of this treatment charge if you clearly indicate on the invoice that the coal is so treated. Provisions of this paragraph shall not apply to sales of solid fuels in less than ¼ ton lots, unless requested by the purchaser.

(g) **Commingleing.** If one size or kind of coal is sold commingled with another size or kind of coal, the maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes or for the least expensive kind of coal so commingled, whichever is lower, whether the sale be a "delivered sale" or "yard sale", except in the following situation: Where a purchaser requests that two or more sizes or kinds of fuels be commingled in one delivery, then, and in that event, if these sizes and kinds are separately weighed at the point of loading, the dealer may commingle those sizes and kinds in the truck or other vehicle, in which the delivery is made. The price for coal so commingled shall be calculated on the basis of the applicable per

net ton price for each size and kind in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size and kind in the combination.

(h) *Ex Parte 148, Freight Rate Increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(i) *Addition of increase in supplier's maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(j) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or any amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(k) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(l) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(m) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(n) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is sus-

pended, you may not sell any such commodity during the period of suspension.

(o) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of solid fuels covered by this order, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(p) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of coal sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(q) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Maryland District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(4) "Direct delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or other vehicle or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(5) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space, in baskets or other containers, or by wheelbarrow or barrel, from the seller's truck or other vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which coal is discharged from the seller's truck in the course of "direct delivery".

(6) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(7) "Pennsylvania Anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(8) The sizes of Pennsylvania anthracite described as broken, egg, stove, nut, pea, buckwheat, rice, barley and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the State of Maryland—Coal Area 1 with such designation during December 1941.

(9) "Virginia anthracite" means non-bituminous coal produced in the State of Virginia.

(13) "High volatile bituminous coal" is produced in the high volatile sections of the producing districts specified herein.

(14) "Underground mine coal" means coal that is taken entirely from underground seams from which the overburden is not removed, and does not include coal from a mine which takes coal from the ground by the stripping method.

(15) All designations in this order of sizes, classifications, seams, etc., applicable to bituminous coal, refer to the sizes, classifications, seams, etc., as set forth in the minimum price schedules for the various producing districts issued by the Bituminous Coal Division of the United States Department of Interior, as in effect midnight, August 23, 1943. "Where the minimum price schedules do not make specific mention of any size designated in this order, such size designations shall refer to the sizes of bituminous coal sold as such in the State of Maryland—Coal Area 1, during December, 1941."

(16) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(s) *Effect of order on Revised Maximum Price Regulation No. 122.* To the extent applicable this order supersedes Revised Maximum Price Regulation No. 122.

(t) *Effect of order on Revised Order No. G-15 as originally issued.* Revised order No. G-15 under Revised Maximum Price Regulation No. 122, as issued on December 6, 1943, is hereby revoked in full as of the effective date of this order.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 70-1266 and 70-965]

COLUMBIA GAS & ELECTRIC CORP. ET AL.

NOTICE OF FILING AND ORDER FOR CONSOLIDATION AND HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2d day of May, 1946.

In the matters of Columbia Gas & Electric Corporation, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, File No. 70-1266; Columbia Gas & Electric Corporation, United Fuel Gas Company, Warfield

Natural Gas Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, File No. 70-965.

Notice is hereby given that an amendment to a joint declaration-application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation (Columbia), a registered holding company, and its subsidiaries, United Fuel Gas Company (United Fuel), Warfield Natural Gas Company (Warfield), Huntington Development and Gas Company (Huntington Development), and Point Pleasant, Natural Gas Company (Point Pleasant). The amendment modifies the previous filing (Holding Company Act Release No. 5748), proposing the merger of said subsidiary companies and Central Kentucky Natural Gas Company (Central Kentucky) and Cincinnati Gas Transportation Company (Cincinnati Transportation), also subsidiaries of Columbia, in that it excludes the latter two companies from such merger.

Notice is also given that a separate joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia, Central Kentucky and Cincinnati Transportation with respect to a merger of these latter two companies.

All interested persons are referred to said documents, which are on file in the offices of the Commission, for a statement of the transactions now proposed, which may be summarized as follows:

United Fuel proposes to merge with and to acquire the businesses and properties of Warfield, Huntington Development and Point Pleasant, and in consideration for such acquisitions it will assume all the liabilities, obligations and indebtedness of those companies and will issue to them shares of its common stock of a par value of \$1 per share, in the following respective amounts:

To:	No. of shares
Warfield.....	24,068
Huntington Development.....	62,668
Point Pleasant.....	500
Total.....	87,236

Prior to the merger Warfield, Point Pleasant and Huntington Development propose to pay cash dividends on their outstanding stocks, substantially all of which are owned by Columbia, in an amount approximating the earned surplus since December 31, 1937 of the respective companies. After the merger these companies will dissolve and distribute to their stockholders the above shares of United Fuel common stock as a liquidating dividend. Thereafter United Fuel will exchange its then outstanding 387,236 shares of \$1 par value common stock for a like number of shares of new common stock of a par value of \$25 per share, United Fuel will then have outstanding 387,236 shares of common stock having an aggregate par value of \$9,680,900, all of which, except 25 1/10 shares, will be held by Columbia, and 6% demand indebtedness in the aggregate

principal amount of \$24,025,000 payable to Columbia.

United Fuel requests the Commission to modify its order of January 31, 1940 (S.E.C. 732) so as to permit it to resume the payment of interest and principal on the 6% demand indebtedness payable to Columbia.

Central Kentucky proposes to merge with and to acquire the businesses and properties of Cincinnati Transportation and in consideration for such acquisition it will assume all the liabilities, obligations and indebtedness of that company and will issue 128,139 shares of its common stock, of a par value of \$25 per share, to Cincinnati Transportation.

Prior to the merger, Central Kentucky and Cincinnati Transportation propose to pay cash dividends on their outstanding common stock, substantially all of which is owned by Columbia, in an amount approximating the earned surplus since December 31, 1945 of the respective companies. After the merger, Cincinnati Transportation will dissolve and distribute the Central Kentucky common stock to its stockholders as a liquidating dividend. Upon consummation of these transactions, Central Kentucky will have outstanding 188,139 shares of common stock having an aggregate par value of \$4,703,475, of which 187,563 shares will be held by Columbia and 576 shares by others.

The Public Service Commission of West Virginia has approved the acquisition by United Fuel of the assets of Point Pleasant, Warfield, and Huntington Development, and the approval of the Public Service Commission of Kentucky and the Federal Power Commission is also being sought in respect of certain aspects of such matters. The approval of these latter two Commissions is also being sought in respect of certain aspects of the proposed transactions between Central Kentucky and Cincinnati Transportation.

It appearing to the Commission that the above matters are related and involve common questions of law and fact and should be consolidated, and that it is appropriate in the public interest that a hearing be held for the purpose of considering such consolidated matters;

It is hereby ordered, That the proceedings with respect to the matters under the Commission's File No. 70-965 be, and the same hereby are, consolidated with the proceedings in respect of the matters under the Commission's File No. 70-1266, and that a hearing be held with respect to such matters at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, on May 21, 1946 at 10 a. m., E. D. S. T., in such room as the hearing room clerk in Room 318 will at that time advise.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing copies of this order by registered mail to Columbia, United Fuel, Warfield, Central Kentucky, Cincinnati Transportation, Huntington Development, Point Pleasant, the Public Service Commissions of the States of West Virginia and Kentucky, and the Federal Power Commission; and that notice of said hear-

ing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of this Commission, or on before May 20, 1946, his request or application as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said applications-declarations, particular attention will be directed at the hearing to the following matters and questions:

(a) Whether the request of United Fuel to be permitted to resume the payments of interest and principal on the 6% demand note indebtedness payable to Columbia is appropriate and in the public interest and in the interests of investors and consumers;

(b) Whether the fees and expenses to be paid in connection with the proposed transactions are reasonable;

(c) Whether the accounting treatment proposed in connection with the contemplated transactions is proper and in accordance with sound accounting practices;

(d) Whether, if the proposed transactions are authorized, it is necessary or appropriate that terms or conditions be imposed in the public interest or for the protection of investors and consumers;

(e) Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

By the Commission.
